UFlex's Chemicals and Engineering Businesses to Exhibit Innovative Packaging and Printing Solutions at Printpack India 2025

Noida, January 30, 2025: UFlex, India's largest multinational flexible packaging and solutions company, is set to exhibit its advanced range of inks, coatings, adhesives, and printing and packaging machines at Printpack India 2025, taking place at the **India Expo Centre & Mart, Greater Noida**, from **February 1-5, 2025**. UFlex's participation promises to provide an overview of its **chemical** and

engineering product solutions, highlighting its commitment to innovation, sustainability, and technological advancement.

At Printpack, **UFlex Chemicals** will present an innovative product range of UV & UV LED printing inks suitable for sheetfed, narrow web, letterpress, screen, and web offset printing applications. Additionally, it will showcase its UV coatings, specially designed for décor and construction applications,

alongside a range of water-based specialty coatings offering oil and grease resistance, heat sealing, and special effects properties. It will also highlight its water-based lamination adhesives for paper bags, rigid boxes, and mono carton applications. The UFlex Chemicals business brings decades of experience in delivering market-leading innovations and sustainable packaging solutions, backed by a state-of-the-art NABL-accredited R&D center recognized by India's Department of Science and Technology.

The **Engineering business** will present its latest innovations in printing and packaging technology, including the CI Flexo press, ELS printing machine, and extrusion lamination machine. These innovations are designed to enhance printing and packaging efficiency, quality, and sustainability. The CI Flexo press offers high-quality printing and maximum efficiency, while the ELS printing machine is renowned for its advanced capabilities that meet modern packaging demands. The extrusion lamination machine is UFlex's solution to produce high-quality laminated materials with exceptional durability.

Visit **UFlex's booth at 13-A, Hall No. 7**, to interact with experts, discover transformative technologies, and learn about sustainable solutions that are shaping the future of the packaging sector.

About UFlex Limited:

UFlex is India's largest multinational flexible packaging and solutions company. Since its inception in 1985, UFlex has grown from strength to strength and has built a strong presence across all verticals of the packaging value chain - packaging films, chemicals, aseptic packaging, flexible packaging, holography, engineering, and printing cylinders.

With a 10,000+ strong multicultural workforce across global regions that works toward developing innovative, value-added, and sustainable packaging solutions, the company has earned an irreproachable reputation for defining the contours of the 'Packaging Industry' in India and overseas. It provides end-to-end solutions to numerous Fortune 500 clients across various sectors such as FMCG, consumer product goods, pharmaceuticals, building materials, automobiles, and more, in more than 150 countries. Headquartered in Noida, the National Capital Region, India, UFlex enjoys a global reach with advanced manufacturing facilities in India, UAE, Mexico, Egypt, USA, Poland, CIS country, Nigeria, and Hungary.

A winner of various marquee global awards for product excellence, innovation, and sustainability, UFlex is the first company in the world to earn recognition at the Davos Recycle Forum in 1995 for conceptualizing the recycling of mixed plastic waste. For more details, please visit: www.uflexltd.com
