FE BUREAU New Delhi, February 14

THE CENTRAL BOARD of Direct Taxes (CBDT) has clarified that the eligibility criteria for claiming refunds under the new income tax Bill remains unchanged when compared to I-TAct, 1961.

"The statement that taxpayers will be eligible for a refund only if they have filed a return on income on time under Section 263 of the I-T Bill is incorrect," the CBDT

According to experts, the new Income Tax Bill, 2025 contains some provisions which have created ambiguity regarding the eligibility for claiming tax refunds.

To be specific, clause (ix) under'Section 263(1)(a)' of the new Bill mandates that a taxpayer who intends to claim a refund, is required to file their Income Tax Return (ITR) within the "due date". But,

PRIYANSH VERMA New Delhi, February 14

THE CENTRAL BOARD of Indirect Taxes & Customs'(CBIC)'e-Office' application services remain non-functional since February 9, primarily affecting customs clearance process.

A senior official in the CBIC told FE that the issue is likely to be resolved within the next two days, and till then officers in the department have been asked to grant urgent approvals, or handle other business, through physical means.

e-Office is an application developed by the National Informatics Centre (NIC), to carry out office work of the CBIC electronically. The CBIC's Directorate General of Performance Management (DGPM) oversees the functioning of the application.

On Sunday, the outage of e-Office was due to network failure at the NIC/RailTel Data Centre, where CBIC's eOffice application is hosted.

Experts say Customs officers typically rely on this application, and the digital framework for clearance, duty assessments, and approvals. Any disruption affects import/export clearances, causing delays at ports and borders.

Lower yield to impact cotton output: CAI

COTTON ASSOCIATION OF India (CAI) on Friday said the overall cotton output in the current season (2024-25), beginning October, is estimated to dip to 301.75 lakh bales due to lower yield in Gujarat and the northern

During the preceding season of 2023-24, cotton output stood at 327.45 lakh bales, according to the CAI data.

"The overall production is expected to be impacted due to lower yield.

"Our estimates are based on reports of lower cotton yield in Gujarat, Punjab and Haryana. However, the quality of cotton is very good," CAI president Atul Ganatra told PTI.

Meanwhile, the total cotton supply till end of January 2025 is estimated at 234.26

lakh bales. This includes the fresh pressings of 188.07 lakh bales, imports of 16 lakh bales and the opening stock of 30.19 lakh bales at the beginning of the season.

Further, the CAI has estimated cotton consumption up to the end of January 2025 at 114.00 lakh bales and export shipments at 8.00 lakh bales.

FE BUREAU New Delhi, February 14

INDIA'S WHOLESALE PRICE index (WPI)-based inflation eased marginally to 2.31% in January from 2.37% in December, mainly due to a decline in food prices, official data released on Friday showed.

The WPI food inflation declined to 7.47% during the month, from 8.89% in December. The 'primary articles' inflation eased marginally to 2.31% from 2.37%, while 'fuel & power' inflation rose to (-)2.78% from (-)3.79%.

As per the CBDT, Chapter

XX of the new Bill corresponds

to Chapter XIX (refunds) of I-T

remain unchanged, they said.

1961 Act, section 239 (dealing

with refunds), requires a per-

son to claim refund by filing a

return in accordance with the

provisions of section 139

(related to ITR filing process),

and the same concept is pre-

the new Bill to include persons

intending to claim refund

within statutory obligation to

file return may be regarded as

clarificatory or an enabling

provision – more particularly

for persons who are otherwise

not obligated to file return but

need to claim refund," Surabhi

"Thus the amendment in

sent in the new Bill too.

Experts say in the extant

The inflation of 'manufactured products' rose to 2.51%, a 24-month high. This was largely

due to the 'food products' subcategory witnessing a 10.42% inflation in January, other major items, such as chemicals and textiles recorded moderate inflation prints, while basic metals observed a negative print.

Analysts say going ahead, it is crucial to monitor geopolitical developments and global trade uncertainties closely, as these could significantly influence global commodity markets and supply chains. The rupee has depreciated by around 4% in H2FY25 so far against USD raising the risk of imported inflation, noted Rajani Sinha, chief economist, CareEdge Ratings.

Despite the rise in global commodity prices in January,

these factors are unlikely to pose a significant threat, as economic growth in China remains subdued, she said.
